

Dkt. No.: OP-093000174

AMENDMENTS TO THE CLAIMS:**1. (Currently amended) A demountable lampshade, comprising:**

a plurality of shade pieces, each including a frame with an upper frame section, a lower frame section and two side frame sections, and at least one side frame having a buckle member formed thereon to ~~be rotated to~~ clamp two corresponding side frame sections when the shade pieces are mounted to each other; ~~[[and]]~~

a connecting base located to the upper frame sections of the mounted shade pieces, including an outer ring, an inner ring and a plurality of connecting rods connected between the outer and inner rings; ~~and~~

~~a protrusion formed near an end of the side frame section connected with the corresponding upper frame section of each shade piece so that the outer ring is located between the protrusions and the upper frame portions of the mounted shade pieces,~~

~~thereby via the support of the protrusions, the connecting base is mounted between the upper frame sections and the protrusions.~~

2. (Cancelled)

3. (Currently amended) The demountable lampshade of claim ~~[[2]]~~1, wherein the outer ring includes a plurality of indentations with respect~~[[ed]]~~ to the protrusions.

4. (Original) The demountable lampshade of claim 3, wherein a diameter of the inner ring is much smaller than a diameter of the outer ring.

5. (Original) The demountable lampshade of claim 3, wherein a number of the shade pieces is equal to a number of the indentations.

6. (Currently amended) The demountable lampshade of claim 1, wherein two buckle members are formed on the side frame section.
